STANES SCHOOL – CBSE

Class 12 – Computer Science Cyclic Test-2

Marks: 25 **Time: 1 hour**

1. Consider the given SQL Query: **1**

   SELECT name, marks FROM student WHERE marks => 75;

   Aarav is executing the query but not getting the correct output. Write the correction.

2. Consider the given SQL Query: **1**

   SELECT * FROM student WHERE city = 'Delhi' AND 'Mumbai';

   Riya wants to display students who belong to either Delhi or Mumbai, but the query is not giving the correct output. Write the correction.

3. Consider the given SQL Query: **1**

   SELECT * FROM student WHERE marks BETWEEN 60 OR 80;

   Kabir wants to display students whose marks are between 60 to 80. Write the correction.

4. Which SQL command can change the cardinality of an existing relation? **1**

   a) INSERT b) DELETE c) Both a) & b) d) DROP

5. Which SQL command is used to remove a column from a table in MySQL? **1**

   a) UPDATE b) ALTER c) DROP d) DELETE

6. Consider the following table **STUDENT**:

RollNo	Name	Gender	Marks	DOB
101	Aarav	M	85.5	2008-05-15
102	Saanvi	F	92.0	2008-08-21
103	Rohan	M	78.5	2009-01-10

   (a) Write an SQL query to create the STUDENT table with the above structure. **2**

   (b) Write an SQL query to insert the first two records into the STUDENT table. **2**

   (c) Write an SQL query to delete the table. **1**

   (d) Write the Degree and Cardinality of the table. **1**

7. Write suitable commands to do the following in MySQL.

   I. View the table structure. **1**

   II. Create a database named CLASS12. **1**

8. Differentiate between DROP and DELETE query in SQL with a suitable example. **2**

9. Consider the table **COURSE** given below and answer the below given questions: **10**

COURSE

Course_ID	Course_Name	Department	Duration	Fee
C101	Artificial Intelligence	Computer Science	6	12000
C102	Digital Marketing	Commerce	4	8000
C103	Python Programming	Computer Science	3	6500
C104	Graphic Designing	Fine Arts	5	9000
C105	Financial Accounting	Commerce	6	7500
C106	Web Development	Computer Science	4	10000
C107	Psychology Basics	Humanities	3	5500
C108	Business Analytics	Commerce	5	11000

A. Write SQL queries for the following:

I. Display the Course_Name and Fee of courses whose fee is more than ₹9,000.

II. Display all details of courses offered by the Computer Science or Commerce department.

III. Display the distinct Department names from the COURSE table.

IV. Display the details of courses whose Course_Name ends with the letter 'g'.

V. Display all the records of the COURSE table arranged in ascending order of Fee.

B. Predict the output of the following:

I. SELECT * FROM COURSE

WHERE Fee BETWEEN 7000 AND 10000;

II. SELECT Course_ID, Course_Name FROM COURSE

WHERE Department = 'Commerce' ORDER BY Duration;

III. SELECT Course_Name, Duration FROM COURSE

WHERE Department = 'Computer Science' AND Duration >= 4;

IV. SELECT Course_Name, Department, Duration, Fee FROM COURSE

WHERE Department IN ('Fine Arts', 'Humanities');

V. SELECT Course_ID, Course_Name, Fee FROM COURSE

WHERE Fee > 7500 ORDER BY Fee DESC;
